

ZERO⁵²⁰CONTACT

SIDE FLEX MODULAR BELT

Movex[®] Zero Contact[™] modular fixed radius curve belt it's the best choice for all type of transportation, for beverage, food and logistic industries, thanks for its versatility. It offers high performances, reducing the coefficient of friction between the product and running belt surface and improves the efficiency line, by minimizing downtimes.

A wide range of radii and widths helps finding the right solution for every product dimension and transportation condition, from light packages to heavier ones. Installation and maintenance have never been so easy, so far.

FDA approved.

Design details

Wide range available

- **Inner radius:** 600mm ÷ 2000mm (23.6" ÷ 78.7")
- **Belt width:** 200mm ÷ 1600mm (7.9" ÷ 63")
- **Angle:** 90° and 180°

Features

- **Row to row angle:** 1,33°
- **Pin:** D4,7mm, PBT White
- **Material of the modules:** LFA (POM)
- **Color of the modules:** Pigeon Blue
- **Open Area:** 0%
- **Max Working Load:** 13.500 N/m (924 lb/ft belt width)

Low coefficient of friction

Minimized maintenance

Easy pin removal
